

# Hrishikesh Sane

+91 7573021121 | Vellore, Tamil Nadu | [hrishikesh.sane89@outlook.com](mailto:hrishikesh.sane89@outlook.com) | [linkedin.com/hrishikesh-sane](https://linkedin.com/hrishikesh-sane)

## Education

### Vellore Institute of Technology, Vellore

July 2022- Present

*Bachelor of Technology in Computer Science (Cgpa - 9.09)*

Vellore

- **Relevant Coursework:** Operating Systems, Computer Networks, Data Structures and Algorithms (C++), Object Oriented Programming, Computer Architecture and Organisation, Web Development, Probability and Statistics

### Navrachana School, Sama

April 2010 - June 2022

*Higher Secondary Education (Percentage - 91.2%)*

Vadodara

## Experience

### L&T - Power

June 2024 – July 2024

*Machine Learning Intern*

Vadodara

- Collaborated with a cross-functional team to develop a robust face recognition model for an internal attendance application, enhancing the accuracy by 20% and enhancing employee attendance tracking efficiency.
- Conducted extensive testing and validation to ensure the model's reliability and robustness in various lighting conditions and environments resulting in a 15% reduction in false positives.
- Integrated the face recognition model with the existing attendance app, resulting in 25% improvement in user experience for employees and operational efficiency.

## Projects

### Face Recognition Model | Python, TensorFlow, NumPy, Flask

- Engineered and deployed a face recognition model utilizing Siamese Neural Networks to accurately identify and verify individuals and achieved 70% accuracy in identifying and verifying individuals
- Implemented the model using TensorFlow, leveraging its advanced deep learning capabilities to design and train the Siamese Neural Network, optimizing model performance and scalability.
- Developed and executed a comprehensive training pipeline, including data augmentation and preprocessing techniques, leading to 20% improvement to enhance the model's performance and generalization.

### Serene-Soul - Mental Health Support Platform | HTML, CSS, JavaScript, ReactJS, Firebase, Bootstrap

- Developed a comprehensive mental health support platform to provide users with tools and resources for mental well-being.
- Designed and implemented a responsive, user-friendly interface using ReactJS to ensure a smooth and intuitive user experience.
- Created a blog page to share informative articles and resources related to mental health, enhancing user access to valuable content.
- Integrated Firebase API for secure user data management, including authentication and real-time database functionalities, prioritizing data integrity and privacy.

### Vehicle Maintenance Prediction Platform | Technologies used HTML, CSS, JavaScript, Python, SQLAlchemy, PostgreSQL, Machine Learning

- Developed a web portal for vehicle maintenance prediction, serving a large user base and enabling them to manage equipment data and predict potential failures..
- Implemented secure user authentication and data management, storing over 10,000 equipment readings in a PostgreSQL database.
- Developed a responsive form interface for users to input and update parameter readings.
- Integrated a machine learning model using Python and Scikit-learn, predicting equipment failure dates with 85% accuracy by analyzing parameter trends and plotting a regression line.
- Connected the portal to a predictive model via API calls, delivering detailed failure predictions and an overall health score for over 7 different equipments with each having an average of 8 parameters.
- Utilized SQLAlchemy to optimize data retrieval and processing, reducing query times by 40%.

## Extracurricular experience

---

### **Toastmaster's International**

June 2024 – Present

*Assisted Area Director Of Public Relations for Area A5*

*Vellore*

- \* Developed and executed comprehensive PR strategies to enhance the visibility of Toastmasters clubs within the area, leading to a 20% increase in public engagement.

### **Toastmaster's International**

Jan 2024 – June 2024

*Vice President of Public relations*

*Vellore*

- \* Led the club's public relations efforts, enhancing its visibility and reputation within the community and among potential members.

## Skills

---

**Programming Languages:** C/C++, Java, Python,SQL

**Web Development:** HTML, CSS, Javascript, React.js, Bootstrap, Node.js, Flask, SQLAlchemy

**Database Management:** MySQL, PostgreSQL, Firebase

**Version Control:** Git,GitHub

**Data Science & ML:** Tensor-flow, NumPy, Pandas, Jupyter Notebooks
